

## **Canada Alberta Energy Investment Program (CAEIP)**

### **Introduction**

The Canadian oil & gas industry is a very attractive and safe place for short and long term investments. Every year Hundreds of Million dollars are invested in Alberta's oil & gas industry from individuals and companies outside Canada. Calgary, Alberta is not only a great place to invest but also has very high standard of living and excellent quality of life.

The purpose of the Canada Alberta Energy Investment Program is to educate and introduce to new potential investors looking to enter into the Canadian oil & gas Market. The program is an introduction to the Canadian oil & gas industry and can include other related investment areas.

This CAEIP have been presented to many groups of potential investors ranging from the primary level of interested individuals to the players of large institutional investors from outside Canada. This CAEIP is structured and presented with a focus to suit various levels of interest.

The program organizer is US Oilfield Inc., a Canadian oil & gas consulting company based in Calgary. Ken Koo, the President has over 42 years experience in the Canadian and the international oil & gas markets. This company have been active in assisting foreign investors to set up, implement, operate and manage their oil & gas ventures in Canada.

Our experienced industry professionals are active successful oil & gas business operators. We offer an independent view of the Canadian energy sector and are excellent resource for knowledge and guidance on matters relating to energy investments. Our goal is to maximize returns and increase the value of your investment.
